Jann Leerick “Lee” Peralta Duqueza

Full-Stack Software Engineer | Java · Spring Boot · React.js · Next.js

jlpduqueza@gmail.com · Philippines · leeduqueza.com · github.com/jlpduqueza · Upwork

PROFESSIONAL SUMMARY

Full-stack software engineer with 7 years of professional experience building and modernizing enterprise web applications. Builds backend services with Java, Spring Boot, GraphQL and REST APIs, and responsive front ends with React.js, Next.js and Tailwind CSS. Experienced across corporate and freelance work, owning features end to end, and uses Claude and Claude Code for AI-assisted development.

TECHNICAL SKILLS

Backend: Java, Spring Boot, GraphQL, REST APIs, Maven

Frontend: React.js, Next.js, Tailwind CSS, JavaScript (ES6+), Redux, KendoReact

AI-assisted development: Claude, Claude Code

Database & CMS: MySQL, Strapi

Deployment & tools: Vercel, Heroku, Git

PROFESSIONAL EXPERIENCE

Mid-Level Software Engineer — Qbryx Technology Solutions Corporation 2019 – Present

- Develop and maintain features for OmTrak, an enterprise construction and asset-management platform, across a Java, Spring Boot and GraphQL backend and a React.js front end.
- Build responsive UI components with React.js, KendoReact, Redux and Tailwind CSS.
- Maintain, migrate and upgrade existing OmTrak modules to newer React.js and Tailwind CSS standards while keeping them stable.
- Integrate services through GraphQL and REST APIs backed by MySQL, investigate and resolve defects, and work with developers and QA on platform upgrades.

Freelance Full-Stack Web Developer — Upwork 2020 – 2022

- Delivered web projects for international and local clients, from healthcare hiring platforms to digital publications (see Freelance Projects).

FREELANCE PROJECTS

MedSurf — Healthcare employment marketplace (Upwork client)

- Built and maintained applicant and employer dashboards connecting healthcare professionals with employers, recruiters and contract roles.
- Implemented account-management features and fixed issues in the authentication system.
- Developed responsive user interfaces with Next.js and Tailwind CSS.

Marino World Online — Digital maritime publication

- Built and maintained the front end for industry news, feature stories, interviews, videos and online magazine content.
- Implemented responsive layouts and dynamic content rendering with Next.js, Tailwind CSS and Strapi.
- Deployed and hosted the site on Vercel and Heroku.

EDUCATION

Bachelor of Science in Computer Science — New Era University 2015 – 2019
